

Statement

2026 Post 6 Day 2

Welcome to the Oh Crap Mine and thank you for answering our call for help. We had a 4 person clean-up crew go in on midnight shift to work on the 2 Right section. The fire boss headed in but could not make it to the section because a rush of dust headed towards him. Once outside he said "Oh Crap! You should have seen what I seen. I think them boys is in trouble up there." We have tried to contact the section but have heard nothing.

We have a well- equipped and trained mine rescue team to serve as your back up while you are underground. The exhausting fan is currently running, all power is off to the section and the maps are not up to date. We have had trouble with the roof and gas on this section in the past. #1 Entry is used as a return, #2 entry is used as an intake and, #3 is used as a return. The fan is currently being monitored while you are underground.

Please help find our missing miners and good luck.

Problem P6 D2

2026

BRING ALL SURVIVORS TO FAB

**THE FAN IS CURRENTLY RUNNING AND BEING MONITORED.
THE FAN CAN NOT BE STOPPED, STALLED, OR REVERSE.**

EXPLORE ALL AREAS THAT CAN BE EXPLORED SAFELY
